Harry Potter- Scheme Overview

This is a Year 7 Drama Scheme of Work, with activities to cover at least 6 One Hour lessons. The scheme has been developed to be delivered as a classroom or online learning scheme. It includes several editable pdf worksheets for online learning. The scheme focuses on events from the first Harry Potter book but also explores the stage production of Harry Potter and the Cursed Child. Students do not need to have read the book(s) or seen the stage production in order to fully access the scheme.

How to use this Resource

Each lesson has the same structure:

- Introduction (5 mins)
- A creative or retrieval starter (10 mins)
- Two main activities (30 mins)
- A Sharing, Finisher or Plenary activity (10 mins)

The timings are a rough indicator but should not be prescriptive.

The PowerPoint which accompanies the scheme has all the activities and resource links to use in a school or online lesson. The lesson plans are the teacher's guide and script for teaching each lesson. The Student Worksheets and pdf templates can be shared directly with students for specific lesson activities, homework or independent study. The video clips and music enhance the scheme but there are enough resources in the scheme for it to be delivered without these, if you cannot set up these in a classroom or online.

Harry Potter- Learning Outcomes

Lesson 1: The Boy Who Lived

Lesson 2: The Letter from No one

Lesson 3: Wand Dance

Lesson 4: Behind the Scenes

Lesson 5; Creating a Character
